

LUV'S FRIGHT NIGHT

A GHOST IN BAD COMPANY

INSTRUCTION BOOKLET

RETRO RUMBLE

THE RUN

Luv is a ghost with a devil's horns and an angel's halo, and neither side will have him. Eight worlds lie between him and the floor of the underworld. Seven of them are ruled by a sin. The eighth is ruled by Hades.

Take each stage from left to right, find the gate at the end, and put down whatever is waiting in the third room.

CONTROLS

PAD	run, and duck at a gate
A	jump - hold it to hover on the way down
A (held)	the hover meter drains, and fills on the ground
B (tap)	throw a soul flame, once you are carrying one
B (held)	run horns-first, fast enough to break blocks
START	pause: resume, restart, or leave
SELECT	nothing, and it never will

WHAT YOU CARRY

SOUL FLAME

Tap B to throw a flame. Lost first when you are hit.

DEVIL DASH

Hold B to run horns-first, fast enough to break blocks.

WISP WINGS

Triples the hover meter. Held until the run ends.

PURPLE SOUL

Turns Luv violet and takes one hit for him.

A hit costs the last thing you picked up.
With nothing left to lose, it costs a life.

Ninety-nine souls is a life, and the count starts again.

BAD COMPANY

HALO IMP

Walks its patch and turns at the edge. Stamp on it.

CHERUB FIEND

Flies a slow wave. It will not come down to you; go up to it.

GNASHER

Charges once it sees you. Its rush is faster than your run.

CENSER WRAITH

Stands off and spits. Close the distance or burn it from range.

BONE BAT

Hangs, drops, and climbs back up. Wait for the top of its rise.

THE SEVEN

I SUPERBIA

Pride. Holds station and rains from above, then runs at you.

II AVARITIA

Greed. Hops and lobs its hoard in two arcs at once.

III LUXURIA

Lust. Drifts, and charms whatever else is in the room.

IV INVIDIA

Envy. Charges wall to wall. It is dazed for a moment when it hits one.

AND THE KING

V GULA

Gluttony. Slow and enormous, and it fills the room with what it spits.

VI IRA

Wrath. The fastest of them, and it slams the floor.

VII ACEDIA

Sloth. Never moves. The ceiling does the work.

VIII HADES

The end of it. Three phases, and it gets quicker with every one you take.

AND ONE MORE THING

Every stage prints a four letter code on its world card. Write it down and LEVEL CODE will take you back there.

Some walls are not walls. Some rooms are not on the way.

Nothing in this cartridge was sampled or borrowed. Every sprite, every tile and every note was generated by the tools in this project, and so was this booklet.

RETRO RUMBLE

A LUVWRLD GAME
